Allowable Subject Matter

1. Claims 1-2, 4-11, and 13-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art, Dai Nippon, discloses a multi-layered adhesive tape to be adhered to an electronic part. Although the reference teaches the addition of a layer having conductive properties, the reference does not teach *depositing* a conductive layer having a *thickness* in the applicant's claimed range. It is the examiner's position that the deposition of a conductive layer having the specified thickness in the applicant's claimed cover tape and method for forming the cover tape would provide a novel and unobvious step over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
